A. RELATED AGREEMENTS

This project is being carried out under the provisions of the following agreements:

- Denali Commission Financial Assistance Award Project Number 0071-DC-2002-I24, dated April 2002
- Memorandum of Understanding Between the Denali Commission and the Alaska Native Tribal Health Consortium for Alaska Rural Primary Care Facilities and Sanitation Facilities Planning, Design, and Construction, dated June 2002

B. SCOPE OF PROJECT

Under this project, a new health clinic facility, totaling approximately 2,800 square feet, will be constructed in the City of Stebbins, Alaska. Denali Commission Funding is being provided for approximately 2,000 square feet of the new facility. Other funding has been provided for the other 800 square feet of the facility. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

C. PROJECT FUNDING

Denali Commission funding for this health facility improvement project has been made available to the ANTHC through a separate Financial Assistance Award (FAA), or amendment to an existing FAA, between the Denali Commission and the ANTHC.

It is understood that Denali Commission funding transfers will be made to ANTHC incrementally. Project activities should not proceed until funding for each increment of work is available to ANTHC. The Norton Sound Health Corporation shall notify ANTHC if matching funds—as specified in the grant application—from the Stebbins IRA Council (obtained through a DCED Mini-grant) and from the City of Stebbins (CDBG matching construction grant) are not available. If in-kind or other funding sources are unavailable, transfers to the sub-recipient will be curtailed.

D. PROJECT MANAGEMENT METHODOLOGY

In conformance with the Memorandum of Understanding Between the Denali Commission and the ANTHC for Alaska Rural Primary Care Facilities, dated April 2002, the City of Stebbins has selected the following project management methodology:

Project design and construction will be managed by Norton Sound Health Corporation, which has met standards for a "Pass Through" organization approved by ANTHC. ANTHC will only maintain program oversight of the project. No technical assistance or project management will be provided by ANTHC.

E. PROVISIONS FOR PROJECT COMPLETION

Denali Commission funding is immediately available for project design. However before construction funding may be released, the City of Stebbins must submit to the commission proof of the following:

- Documentation of site control (re. interim conveyance of 14c3 lands).
- Demonstration of cost share must be provided prior to release of construction funding.

The commission will inform ANTHC when these three conditions have been met.

F. EFFECTIVE DATE OF SUB-AWARD

The Sub-Award shall take effect upon signature by all parties. Eligible project expenses include costs for this project incurred prior to execution of this Sub-Award.

G. PROJECT OVERSIGHT

In accordance with Denali Commission funding conditions, ANTHC will provide project oversight, thereby supporting the scope of work of this Sub-Award.

H. REPORTS

H 1. Report Guidelines

The Sub-Award Recipient (Local Participant) shall submit written progress reports to ANTHC quarterly (January/March, April/June, etc.). The reports are due within 30 calendar days of the end of the quarter so that they may be incorporated into ANTHC's quarterly report to the Denali Commission. Written notification is required in the event of significant project events that may extend the project schedule or impact the project budget. Quarterly progress reports shall include a narrative summary of the project status (for each clinic project) and accomplishments to date and shall address the following questions: Is the project on schedule? Is the project on budget? and, What actions are planned to address any project problems? A minimum of four labeled photographs illustrating the work during the quarter shall accompany the narrative report.

The ANTHC may, at any time, request the Sub-Awardee to provide the progress reports in electronic format for direct posting on the Denali Commission web page.

H 2. Quarterly Project Finance Status Reports

Project financial status reports shall be submitted to ANTHC quarterly (included as part of the quarterly progress reports). The quarterly financial status report shall illustrate the following:

- The total project budget.
- The total amount of Denali Commission funds committed to the project.
- The total project expenditures as of the end of the most recent quarter.
- The total expenditure of Denali Commission funds for the project as of the end of the most recent quarter based on pro rata share of total contributions (report can be by dollar amount or percentages).

H 3. Final Financial Status Report

A final Financial Status Report shall be submitted to ANTHC 30 days after the end of the Award Performance Period or completion of the project. The Financial Status Report, Standard Form 269, is available at the following website address:
www.whitehouse.gov/OMB/grants/index.html#forms

H 4. Labor and Residence Report

A labor type, residence and wage report shall be submitted to ANTHC two times annually. At a minimum these two reports must be submitted on or near August 1 and December 1 each year to correspond with the Alaska construction season. The report must include the following information by construction project for any person employed on the construction of that project: position, place of primary residence, first check date, last check dated, rate of pay per hour, payroll earnings from inception of the project to date. Personal or confidential information such as Social Security numbers, number of individuals or other information that would identify an individual should not be included in this report. A sample report format will be provided by ANTHC.

H 5. Photographic Documentation

Photographic documentation shall be provided to ANTHC at the beginning of the project and at project completion. Photo documentation shall include a minimum of five "before" pictures showing the situation before the start of construction, 10 "during" (provided at project completion) showing work proceeding on the project, and 5 "after" to show the finished project. For minor repair and O&M projects, pictures should be provided before and after to the extent possible. Photos shall be provided as photo quality, 3x5 prints with a negative for each picture, and/or print quality electronic photos (digital images). A short description of the activity and names of those in the photos shall also be provided.

I. ENVIRONMENTAL COMPLIANCE

The ANTHC will provide the Commission with an environmental review and recommendation for the project. If the Local Participant has completed a prior environmental review and/or archaeological investigation in accordance with other federal agencies' procedures, these reviews will be made available to ANTHC to assist with its process. The Local Participant will cooperate with the ANTHC during the environmental review. The Local Participant will be responsible for completing those items of the National Environmental Policy Act (NEPA) process that are identified as a local responsibility by the ANTHC, such as passing required resolutions for disposition of cultural items and human remains and submitting Coastal Zone questionnaire to the State Division of Governmental Coordination.

Before project construction begins, the ANTHC Environmental Review Officer will perform a review of existing information on known archaeological resources for the project construction site. If necessary, on-site field surveys may be performed to further evaluate the extent and potential for any archaeological sites in the project area being adversely impacted. The on-site work and evaluation will be at project expense.

I 1. Archaeological Review and Discoveries

During the earliest possible phase of planning, the ANTHC Environmental Review Officer will perform a review of existing information on known archaeological resources located at the Office of History and Archaeology for all project construction sites. If necessary, and before project construction, a professional archaeologist will conduct a field survey at project expense. Three phases of archaeological work may be required, including the identification phase, the evaluation phase, and the treatment phase. The primary goal is to evaluate the extent and potential for any archaeological sites in the area of potential effect that may be adversely impacted.

All archaeological review and surveys shall take place in accordance with requirements of Section 106 of the National Historic Preservation Act (NHPA) of 1966.

The Local Participant and other project participants will allow and assist an archaeologist to survey the project site, if required, and will encourage individual homeowners to also cooperate.

The appropriate and responsible authority shall provide to ANTHC a duly executed resolution providing guidance on handling and disposing human remains and associated archaeological resources.

If there are any archaeological sites in the project construction area that are listed or are eligible for listing on the National Register of Historic Places, and if any such known or discovered sites will be adversely impacted by construction, the construction methodology and/or design will be altered, wherever possible, to avoid or eliminate any such adverse impact.

If it is not physically possible or economically feasible to alter the construction methodology and/or design so as to totally avoid all adverse impacts to archaeological sites, avoidance and mitigation procedures will be developed in accordance with 36 CFR 800 in coordination with all concerned parties and government agencies to allow construction to proceed while minimizing loss of archaeological resources.

If, during construction, unanticipated sites, artifacts or human remains are uncovered, construction on that part of the project will be suspended until disposition of the archaeological resources can be made in accordance 36 CFR 800.

J. FUNDING TRANSFER

Denali Commission funding is provided through ANTHC to Sub-Award Recipients, via Financial Assistance Sub-Awards, in amounts and for purposes approved by the Denali Commission.

These awards shall specify financial amounts to be incrementally transferred to the sub-recipient and the amounts allocated to ANTHC cooperative efforts involving project planning, design, construction, construction management, or other project-related services.

K. COPYRIGHT AND RECORDS

The ANTHC reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish or otherwise use, for ANTHC, Denali Commission, or other Federal government purposes, project design documents and as-built information and drawings.

L. EFFECTIVE DATE OF CONSTRUCTION WARRANTY

Upon mutual consent, the final inspection and completion of punch list items will be followed by an Acknowledgement of Project Completion (AOPC) or a Letter of Beneficial Use (LOBU), signed by all participants to the Sub-Award. The AOPC or LOBU will identify the party assuming operating responsibility and the effective date of construction warranty.

*RESOLUTION 1. CITY RESOLUTION TO RECOGNIZE TRIBAL ENTITY RIGHTS FOR THE
DISPOSITION OF CULTURAL ITEMS AND/OR ANCIENT HUMAN
BURIALS, ASSOCIATED ITEMS, AND ARCHAEOLOGICAL REMAINS*

RESOLUTION NO. 02-06-19-01

WHEREAS, the Stebbins City Council, hereinafter called City Council, is the governing body of the City of Stebbins, Alaska, and

WHEREAS, the Alaska Native Tribal Health Corporation, hereinafter called the ANTHC, in coordination with other parties, is providing a grant for construction of health facilities in Stebbins under ANTHC Project No. AN 02-G33 to provide for the improved health and welfare of the residents of Stebbins, Alaska, and

WHEREAS, the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resource identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials, and

WHEREAS, it is the desire and intent of the City Council to comply with all provisions of the NHPA, and

WHEREAS, there is no known controversy anticipated between the proposed health facilities project and known or reported ancient human burial(s), associated item(s), or archaeological site(s), and

WHEREAS, the Stebbins Community Association is the legally recognized local Native American group for conducting affairs regarding the Tribal relationships for the local Native Alaskans in Stebbins, Alaska.

NOW THEREFORE BE IT RESOLVED, that the City Council recognizes the rights of said Tribe to determine the appropriate treatment and disposition of any and all ancient human burials, funerary objects and archaeological artifacts which may be discovered, exposed, or excavated during ground disturbances associated with construction activities required for building or installing health facilities in Stebbins, Alaska.

BE IT FURTHER RESOLVED, that any contractor, employee or consultant engaged by the local governing body for the purposes of such construction shall be required, by written statement in the documents engaging their services, to refer any and all discovery of cultural resources (including ancient human remains) subject to the provisions of this resolution to the current duly authorized leaders or representatives of said Tribe and to abide by the decisions of such leaders or representatives in making appropriate disposition of such objects.

CERTIFICATION:

Adopted at a duly convened City Council meeting of the City of Stebbins at which a quorum was present on June 19, 2002

*RESOLUTION 2. VILLAGE RESOLUTION TO PROVIDE FOR THE DISPOSITION OF
CULTURAL ITEMS AND/OR ANCIENT HUMAN BURIALS, ASSOCIATED
ITEMS, AND/OR ARCHAEOLOGICAL REMAINS*

RESOLUTION No. 02-06-19-15

WHEREAS, the Stebbins Community Association is a duly constituted Native American Tribe recognized by the Federal Government of the United States, and

WHEREAS, the Stebbins Community Association is the duly elected governing body of the Tribe, authorized to act by and on behalf of its members, and

WHEREAS, the Alaska Native Tribal Health Consortium, hereinafter called the ANTHC, in coordination with other parties, is providing a grant for construction of health facilities in Stebbins under ANTHC Project No. AN 02-G33 to provide for the improved health and welfare of the residents of Stebbins, Alaska, and

WHEREAS, the requirements of the National Historic Preservation Act, hereinafter called NHPA, provide for cultural resources identification and protection through avoidance or mitigation to avoid unnecessary disturbance of reported or known human burials, and

WHEREAS, the NHPA requires Tribes to be consulting parties and contains stipulations regarding the appropriate treatment and disposition of human burials, associated items, and archaeological artifacts, and

WHEREAS, there is no known controversy anticipated with the proposed project and any known or reported ancient human burial, associated item, or archaeological site, and

WHEREAS, the excavation activities associated with construction may result in discovery of ancient cultural items (i.e. human burials, associated items, and archaeological artifacts), and

WHEREAS, it is in the interest of all parties concerned that there be no unnecessary delays in the completion of the construction of the health facilities.

NOW THEREFORE BE IT RESOLVED, that the Tribe expressly stipulates the following conditions for disposition of and control over any and all cultural items discovered on all but private lands during construction of health facilities by all parties to facility construction operations:

1. The Tribe has the responsibility to identify any known or reported archaeological site, artifact, or ancient human remains to avoid unnecessary damage to sensitive resources.

2. Construction shall be delayed in the vicinity of the discovery until notification as per 36 CFR 800 is complete.
3. Appropriate mitigation measures shall be determined as per 36 CFR 800, and all mitigation shall be performed in conformance with 36 CFR 800.
4. An archaeologist, retained or employed by any party to facilitate construction operations, will view and document any and all cultural items discovered during excavation if an adverse effect determination has been made.
5. If removal of ancient human remains is necessary, the archaeologist shall remove the entire body. Unless the Tribe requests further study of the remains, tests upon or photographs of any ancient human remains will not occur unless specific, separate Agreements have been made with the Tribe.
6. If a modern human burial is discovered, the Village Public Safety Officer shall be contacted to determine if a criminal act can be identified. If the burial is from an archaeological context, the burial will be treated as archaeological remains and need not be treated as a scene of crime.
7. The Tribe assumes full responsibility of any and all cultural items discovered during excavation, on all but private lands.
8. The Tribe reserves the inherent right to determine the appropriate disposition of any and all cultural items discovered during excavation, on all but private lands.
9. The inherent claims or rights of the Tribe are not diminished by the fact that the land is under ownership by another party.
10. If the discovery is made on Federal lands, Indian Allotment lands, or lands not yet conveyed to the Village or Regional Corporation, parties to facility construction operations shall comply with the Native American Graves Repatriation Act if appropriate.
11. All other inherent rights and claims regarding any and all cultural items discovered on any lands other than private lands during excavation for or in support of facility construction not expressly covered in this Resolution are reserved to the Tribe alone.

BE IT FURTHER RESOLVED, that the *(Name or Title)* is hereby appointed the official representative for the Tribe for the purposes of implementing decision-making actions specified in this Resolution.

MEMORANDUM

DATE: June 2002

FROM: Environmental Review Officer

SUBJECT: Clinic Improvement Project, Stebbins, Alaska
Final Environmental Review, AN 02-G33

TO: FOR THE RECORD

Based upon the scope for this project, an environmental review in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA) has been completed. The Alaska Native Tribal Health Consortium (ANTHC) has considered all potential environmental concerns (specific and cumulative effects) associated with the project in consultation with applicable federal, state, and local authorities. The Environmental Review Report has been completed and reviewed with respect to the proposed health facilities improvement project and is attached to this Memorandum.

FINDINGS

The ANTHC uses the Indian Health Service (IHS) environmental review procedures for conducting environmental analyses of all health facilities projects, as outlined in the *Environmental Review Manual*, the second edition of which was issued in January 2000. This environmental review finds that no further environmental investigation is necessary. All actions involving construction have been reviewed and no extraordinary or exceptional circumstances were found to exist. It is therefore recommended that the Denali Commission approve a determination of eligibility for categorical exclusion from the requirement to conduct further environmental evaluation for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) allows for categorical exclusion of health and sanitation facility projects that do not have a significant impact on the environment, as determined by the attached "Environmental Review and Documentation."

BACKGROUND

Stebbins is located on the northwest coast of St. Michael Island, on Norton Sound. It lies 8 miles north of St. Michael and 120 miles southeast of Nome. It lies at approximately 63° 31' N Latitude, 162° 17' W Longitude. (Sec. 02, T023S, R019W, Kateel River Meridian.)

The population of City of Stebbins, as of December 2001, according to the Alaska Department of Community and Economic Development, was 547 people.

ENVIRONMENTAL RESOURCES OF IMPORTANCE

This project involves the construction of a new clinic in Stebbins, Alaska. The selected site is covered with fill. Because there will be little ground disturbance, resolutions regarding discoveries will be signed by the community, and a review of files at the State Office of History and Archaeology found no known or reported conflicts with cultural resources, the ANTHC has determined this project will not affect historic properties. This finding will be forwarded to the State Historic Preservation Officer for concurrence. It should be noted that the SHPO concurred that no historic properties would be affected for the HUD funded portion of the project. No other environmental resources of importance have been identified.

SCOPE OF WORK

Under this project, a new health clinic facility, totaling approximately 2,000 square feet, will be constructed in the City of Stebbins, Alaska. The scope of this project includes design and planning, site preparation, materials and equipment, construction, and labor.

PROPOSED MITIGATION MEASURES

Given the environmental review performed by the ANTHC, no mitigation activities are proposed for this project.

SUMMARY

The Stebbins will be responsible for ensuring that final design plans for health facilities will be submitted to the appropriate federal and state agencies for review and approval. In addition, the community of Stebbins, Alaska is responsible for compliance with all applicable federal, state and local environmental laws, regulations, and requirements during all phases of the project, and for obtaining all necessary construction permits.

In any discovery situation of cultural items and/or human remains encountered during the course of the project, the construction activity will be stopped in the area of discovery. The community shall further be directed to notify the ANTHC and the Denali Commission to pursue appropriate steps with the State Historic Preservation Officer for developing an acceptable course of action prior to resuming construction activities in the impacted area.

In the event of any other unforeseen discovery which could change the environmental determination, the community shall be directed to notify the appropriate authority, the ANTHC, and the Denali Commission to develop an acceptable course of action prior to resuming construction activities in the impacted area.

With the scope of work outlined in the Financial Assistance Sub-Award, the ANTHC has completed the environmental review. If the scope of work is changed in the future, the community and the ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed.

Chris Campbell

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Stebbins Location: Stebbins, Alaska
 Project Description: Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, <i>see last page</i>)
PART I.		
1. Does this project include construction or lease of new facilities which will total more than 1080 square meters (12,000 square feet)? (Include portable facilities and trailers.)	No	Printed Materials-- The proposed health facility in Stebbins, Alaska will total 2,500 square feet.
2. Does this project involve the construction or lease of new facilities on more than 2 hectares (5 acres) of land?	No	Printed Materials -- Less than 2 hectares (5 acres) will be involved in the proposed Stebbins, Alaska facility.
3. <u>Historic Preservation:</u> Will the proposed project construction or renovation adversely affect properties listed, or eligible for listing, on the National Register of Historic places (buildings, archaeological sites, objects of significance)? If a property is more than 50 years old and no determination of eligibility was done, the agency <u>must</u> evaluate and nominate the facility. Contact the State Historic Preservation Officer (SHPO) and document the contact and SHPO response.	No	No historic properties eligible or on the National Register of Historic Places will be adversely impacted by the construction of the clinic in Stebbins, Alaska. The State Historic Preservation Officer has been consulted for concurrence with this finding.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Stebbins Location: Stebbins, Alaska
 Project Description: Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
4. Will the proposed project construction or renovation violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes? (Activities that generate those items include renovations, new construction, air conditioning repair and service, pesticide application, motor pools, automobile repair, welding, landscaping, agricultural activities, print shops, hospitals, clinics, medical centers, etc. Repair, renovation, or demolition activities can generate waste that has asbestos-containing materials, asbestos, lead-based paint, PCBs, CFCs, etc.)	No	Printed Materials -- The proposed project in Stebbins, Alaska does not violate local, state, or federal law on the use and storage of hazardous substances or the transportation, storage, and disposal of hazardous wastes or medical wastes.
5. Will the project result in a known violation or continuance of a violation of applicable (Federal, Tribal, State or Local) law or requirements imposed for protection of the environment or public health and safety? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.1., K.2.	No	Printed Materials -- The project will be in compliance with all applicable laws and requirements and will have the appropriated regulatory approvals.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Page 3

Facility: Stebbins

Location: Stebbins, Alaska

Project Description: Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
6. Will the proposed project or construction or renovation result in a conflict with existing or proposed state, federal and local land use plans?	No	Printed Materials – The project site is not zoned. The Stebbins, Alaska Traditional Council have identified this project as an essential community facility.
7. Is the project significantly greater in scope than normal projects for the area or does the project have significant unusual characteristics? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.11.	No	Printed Materials – The proposed clinic project in Stebbins, Alaska is typical in scope in comparison with ANTHC health facility improvement projects in rural Alaska and has no unusual, significant characteristics.
8. Does the project have significant adverse direct or indirect effects on parklands, other public lands, or areas of recognized scenic or recreational value? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.5.	No	Printed Materials – Alaska Wildlife Refuges, U.S. Fish and Wildlife Service. Although the community of Stebbins, Alaska lies within the National Maritime National Wildlife Refuge, legislation recognizes the communities lying within the refuge boundary as being compatible with this Federal designation. This project will occur within the community boundaries of Stebbins, Alaska and therefore is not expected to have any adverse effects on the National Wildlife Refuge.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Stebbins Location: Stebbins, Alaska
Project Description: Clinic

Category	Determination (Yes or No)	Basis for Determination (Documentation, see last page)
9. Is there a controversy with respect to environmental effects of the project based on reasonable and substantial issues? REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.3.	No	Personal Contact -- Reference the attached resolutions signed by the tribal and city councils from the community of Stebbins, Alaska.
10. Does the project establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects? (cumulative impact based on current information) REFERENCE: National Environmental Policy Act of 1969/FR Vol. 58, No.3, K.6.	M. No	Printed Materials-- The health facility construction project in Stebbins, Alaska is not anticipated to result in any cumulative impacts that will result in degradation of environmental concerns as outlined in NEPA.
11. Does the project involve the use, transfer or lease of real property which has been used as a storage for hazardous waste and/or petroleum products or their derivatives for more than one year? REFERENCE: Comprehensive Environmental Response, Compensation and Liability Act of 1980/FR Vol. 58, No.3, K.10.	No	Personal contact -- The project engineer, in consultation with the Tribe of Stebbins, Alaska confirms that real property associated with the health facility project in Stebbins, Alaska has not been associated with the use, transfer, or lease as storage for hazardous waste for more than one year.

Facility: Stebbins

Location: Stebbins, Alaska

Project Description: Clinic

PART II		
12. Will the proposed project construction or renovation require major sedimentation and erosion control measures? (e.g.; construction or expansion of a parking lot)	No	Printed Material- The proposed health facility project will be constructed in an area which does not affect soil erosion or sedimentation.
13. Will the proposed project construction or renovation adversely affect community noise levels?	No	Printed Material -- This project will not affect community noise levels because no blasting will occur and heavy equipment use will be limited to the daytime.
14. Will the proposed project construction or renovation adversely affect community air pollution?	No	Printed Material -- The proposed health facility project in Stebbins, Alaska will not adversely affect air pollution. The project is located in an unclassified area with no identified air pollution problems, and it will have minor to no effect on local air quality.
15. Will the proposed project construction or renovation create a need for additional capacity in educational facilities?	No	Printed materials- The proposed health facility project at Stebbins, Alaska will not affect any need for additional capacity in educational facilities.
16. Will the proposed project construction or renovation create a need for additional capacity in health care facilities and for health care services?	No	Printed Materials -- The proposed health facility project is not anticipated to create a need for additional capacity in health care facilities and for health care services because it will not affect community population levels.
17. Will the proposed project construction or renovation create a need for additional energy supply or generation?	No	Printed materials -- Due to improved energy efficiency, the proposed health facility project is expected to use a comparable amount to the one to be replaced.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Stebbins

Location: Stebbins, Alaska

Project Description: Clinic

18. Will the proposed project construction or renovation create a need for additional capacity at solid waste disposal facilities?	No	Printed materials – The proposed health facility project is not anticipated to create a larger solid waste disposal facility.
19. Will the proposed project construction or renovation create a need for additional capacity at wastewater treatment facilities?	No	Printed materials – The proposed health facility project is not anticipated to require an enlarged wastewater treatment facility.
20. Will the proposed project construction or renovation create a need for/or require a storm water control plan? (e.g.; parking lots. Contact local or state authorities, or EPA to determine if your facility or project is in a regulated storm water area.)	No	Printed materials – The proposed health facility project will be extremely limited in overall surface area and is not expected to significantly affect storm water control in Stebbins, Alaska. Storm drainage will be directed away from the building and parking areas. The project is outside of a regulated storm water area.
21. Will the proposed project construction or renovation create a need for additional drinking water supply?	No	Printed materials – The proposed health facility project will not create a need for additional drinking water supply as the same population will continue to be served as previously.
22. Will the proposed project construction or renovation create a need for additional capacity in transportation systems?	No	Printed materials – The proposed health facility project in Stebbins, Alaska will serve the same population in a community lacking a transportation system.
23. Are there other considerations about the proposed project construction or renovation that could adversely affect the environment and/or public health and safety?	No	Printed materials – The proposed health facility project in Stebbins, Alaska is not anticipated to adversely affect the environment and/or public health and safety. No toxic building materials will be utilized.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Location: Stebbins, Alaska

Facility: Stebbins

Project Description: Clinic

PART III		
24. <u>SAFE DRINKING WATER ACT</u> : Will the project impact a sole source aquifer? REFERENCE: Safe Drinking Water Act of 1974/FR Vol. 58, No.3, K.5.	No	Personal Contact – Letter on file from Michael Crotteau, Alaska Department of Environmental Conservation August 1999. There are no designated sole source aquifers in Alaska.
25. <u>FLOODPLAINS</u> : Will the project involve construction in a floodplain (except for actions excluded as a class) or impact floodplain development? REFERENCE: Executive Order 11988 and related Acts and Executive Orders/FR Vol.58, No.3, K.5., K.9.	No	Although Stebbins, Alaska lies in a floodplain, and health facility construction is in a floodplain, it will be conducted in accordance with class action requirements (IHS Environmental Review Manual 2.2.3:18), and work will not adversely affect Floodplain development. There are no flood plain maps available for the community, and the community does not participate in the National Flood Insurance Program.
26. <u>WETLANDS/WATER RESOURCES</u> : Will the project adversely affect wetlands/water resources or will there be construction in wetlands, except in conformance with a Corps of Engineers Section 404 Permit? REFERENCE: Executive Order 11990 and related Acts and Executive Orders/FR Vol. 58, No.3, K.5.	No	Printed materials – All construction will be done upon consultation with the US Army Corps of Engineers (COE) and in conformance with any requisite COE permit.

HEALTH CARE FACILITIES ENVIRONMENTAL INFORMATION AND DOCUMENTATION

Facility: Stebbins Location: Stebbins, Alaska
 Project Description: Clinic

27. <u>Coastal Zone Management</u> : Will the proposed project construction or renovation directly affect a Coastal Zone in a manner inconsistent with the State Coastal Zone Management Plan? (Each coastal state should have a state office to manage its coastal zone development and use. All federal projects in the coastal zone must comply with the management plan.)	No	Printed Materials --The project is consistent with the Alaska Coastal Management Plan. This project is within the Bering Straits CRSA Coastal Zone. A Coastal Zone Questionnaire will be submitted by Stebbins, Alaska.
28. <u>WILD AND SCENIC RIVERS ACT</u> : Is the project a "Water Resources Project" which will impact a wild, scenic or recreational river area and create conditions inconsistent with the character of the river? REFERENCE: Wild and Scenic Rivers Act of 1968 and related Executive Actions/FR Vol. 58, No.3, K.5.	No	Printed Materials -- <i>Wild and Scenic Rivers (Alaska) List</i> , National Wild and Scenic Rivers System, National Parks Service. This project is not a "Water Resource Project" that will impact a wild, scenic, or recreational river, hence will not create conditions that are inconsistent with the character of the river.
29. <u>FARM LAND PROTECTION ACT</u> : Will the project convert significant agricultural lands to non-agricultural uses? REFERENCE: Farmland Protection Policy Act of 1981 and related Acts and Executive Orders/FR Vol. 58, No.3, K.5.	No	Personal Contact -- Letter on file from Steve Tickett, Alaska Department of Natural Resources, July 1999. The community of Stebbins, Alaska is not located within an identified significant agricultural area.
30. <u>WILDERNESS ACT</u> : Will the project adversely impact a wilderness area? REFERENCE: Wilderness Act of 1964/FR Vol. 58, No.3, K.5.	No	Printed Materials -- Great Outdoor Recreation Pages, Alaska Wilderness Area List. The community of Stebbins, Alaska is not located in a designated wilderness area.
